📍 Bangladesh

Motivated professional with over 3 years of experience as an MIS Senior Executive and over 2 years in customer support within the software industry. Known for meticulous attention to detail, exceptional organizational skills, and adept problem-solving abilities. Recently acquired proficiency in PHP, Laravel, JavaScript, Ajax, and jQuery. Poised to transition into a professional developer role, driven by innovation and continuous learning.

WORK EXPERIENCES

Backend Developer
Hovata | 2023 - Present

As a backend developer, I oversee all backend-related tasks, ensuring the seamless integration of systems and optimal performance of applications. From architecting databases to designing robust APIs, I lead a team in developing scalable and efficient backend solutions. My responsibilities include managing databases, optimizing server-side code, and implementing security protocols. By leveraging my expertise in languages like PHP, Laravel, and MySQL, I drive innovation and excellence in backend development, empowering teams to deliver high-quality software solutions.

Junior Software Developer
BelivIt | 2020 - 2023

In my initial role, I contributed to projects including a Parking Management System and platforms like Tutors Point and a News Portal. I utilized C#, HTML, CSS, PHP, JavaScript, MySQL, and Microsoft SQL Server. I created test plans, executed requirement analyses, and collaborated on development tasks, gaining invaluable experience in software development processes and technologies. These experiences have equipped me with a solid foundation for future growth and contributions in the field.

Technical Support
Omicon Group | 2018 - 2020

I provide frontline technical support via phone, email, or chat, swiftly resolving inquiries. Proficient in troubleshooting software/hardware issues and collaborating with developers to implement clientspecific features.

PROJECTS

Fuel Station Management ERP System
